Item 7. LDC Transportation Policy. Specify if the LDC will transport both firm and interruptible direct supply natural gas (DSNG), and if the LDC will allow the activity to switch between the direct supply natural gas contract and the LDC on a monthly (or otherwise) basis. Mark (X) the appropriate response and specify the switching frequency as

Items 5 and 6. Tariffs. List the sales and transportation tariffs used

telephone number of the local distribution company (LDC).

by the activity. Attach copy of latest LDC bill.

appropriate.

Item 8. Current Contractor. If the activity has an existing source supply natural gas contract, enter name and address of current contractor.

interruptible requirements provided to DFSC. Also, provide the maximum daily quantity for the firm gas and the peak day load amount for interruptible gas.

Item 11. Alternate Fuel. List type(s) of alternate fuel(s), unit cost, and the percent of load covered by the alternate fuel capability.

Item 12. Payment Information. Mark (X) the appropriate response to indicate if telefax invoices are accepted by the activity, if wire (electronic) transfer of funds can be made by the paying office, and if Contractor-provided prepaid express mail is allowed by the paying office.

Item 13. Points of Contact. Enter the name of the point of contact, office symbol, commercial telephone and telefax numbers, and mailing address for each of the listed offices.

Item 14. Remarks/Additional Data. Use this block to provide any additional data or remarks as necessary.
